The warehousing and logistics community will come together at the 9th edition of India Warehousing and Logistics Show 2021 to exhibit, launch and display latest solutions, services and technologies required to run a successful supply chain operation.

With a successful legacy of 8 years in the sector, the exhibition takes pride in being an established platform to identify market trends, explore a wide range of products related to material handling, storage, racking, automation, infrastructure, supply chain, protective packaging, AIDC and commercial vehicles, network with peers, enhance your brand reach at a unique platform to be held at a new destination-Gujarat-one of the major warehousing hubs in western region with biggest as well as busiest ports in India, Porbandar and Kandla Port. It is also an emerging warehousing and logistics location, and includes other major cities in Western India such as: Mumbai, Pune, Nashik, Nagpur, Bhavnagar, Jaipur and Indore.

## Indian warehousing and logistics sector on the rise with future investments

Indian warehousing and logistics sector is estimated to attract nearly \$10 billion investments over the next 4-5 years. With addition of around 200 million sq ft warehousing space across India, total supply is expected to nearly double by 2022.

The Indian logistics sector is currently around \$160 billion and estimated to be of \$215 billion by 2020. This phenomenal growth is driven by emerging e-commerce retailers especially in Tier II cities, a corresponding increase in demand and the entry of more MNCs in the FMCG segment.

Furthermore, this has resulted in the rapid increase in the retail channels requiring efficient inventory management and warehousing solutions. Many companies have started engaging with logistics service providers for catering to the customised demands of consumers. The global logistics market will register a CAGR of over 7% by the end of 2022.
